COMPANY PROFILE

# ABOUT KHODIYAR CHEM INDUSTRIES

Since our establishment in 2015, our company has been dedicated to delivering excellence in every aspect of our operations. Located in the heart of Ankleshwar, Gujarat, we started as a small venture with big dreams. Over the years, we have grown steadily, surpassing significant milestones, and expanding our product range to cater to a global clientele.

Khodiyar Chem Industries is a reliable manufacturer of pigment powder for application of Plastic & Masterbatch, Printing Ink, Paint & coatings and Rubber sheet/rolls. This Company is headquartered in Ankleshwar, Gujarat. We believe in fostering long-term partnerships with our clients. Our dedication to quality, diverse product range, and exceptional customer service make us the ideal choice for all your pigment powder needs. We specialize in providing high-quality pigment powder that meet the diverse needs of our esteemed customers. With years of industry expertise and a commitment to innovation, we have established ourselves as a reliable player in the pigment powder industry. Over the years, Khodiyar Chem Industries has continuously invested in Advanced Processes, Extensive Infrastructure and Deep Customer Understanding.

# OUR JOURNEY

## A LEGACY OF EXCELLENCE

### MISSION

Delivering superior pigment powder that empower other business, enhance product appeal, and drive sustainable growth for our customers and partners.

### VISION

To be the reliable innovator and trusted supplier of premium pigment powder, inspiring vibrant expression and sustainable living.

### CORE VALUES

#### INTEGRITY

Trust is our foundation. We conduct ourselves with honesty and transparency in all interactions.

#### FOCUSED ON SMALL BUSINESS

Providing rigorously tested, locally made products that deliver superior results and foster sustainable growth for small businesses.

#### MAKE IN INDIA

We source responsibly and manufacture locally, contributing to Indian growth while delivering globally trusted pigments.

#### PRUDENT CHEMISTRY

Committed to environmental responsibility through sustainable practices throughout our supply chain.

### PRODUCTION CAPACITY

**100+**

**METRIC TONS OF PIGMENT**

### PRODUCTION RANGES

- × MONO AZO PIGMENTS
- × DIAZO PIGMENTS
- × CHROME PIGMENTS

### POLICIES

- × QUALITY POLICY
- × ENVIRONMENTAL HEALTH & SAFETY POLICY
- × TRANSPORTATION & PACKAGING POLICY

### SISTER CONCERN

Havishe Color Science is manufacturer & exporter in all type of Dispersion and Printing Inks.

# RANGE OF PIGMENT POWDERS

Our extensive product portfolio boasts a wide selection of pigment powder, meticulously crafted to meet the highest industry standards. From organic to inorganic pigment powder for various applications, we offer a diverse range that caters to the demands of industries such as paints, plastics, textiles, and more.

What sets us apart is our unwavering commitment to quality. Each product undergoes rigorous testing and quality control measures to ensure exceptional performance and consistency. Our shade matching experts and R&D team develop custom pigments to meet your specific requirements.

## Organic Pigments

Organic pigments, composed of carbon chains and rings, offer excellent resistance to weather, light, solvents, and heat. KCI specializes in developing high-performance organic pigments for various coloring applications, including plastics, inks, paints, coatings, and more.

## AZO PIGMENTS

Pioneering a legacy of synthetic organic pigments, KCI offers a broad range of high-performance yellow and orange pigments for diverse applications. These pigments deliver exceptional properties, making them ideal for various coloring needs.

## Inorganic Pigments

Unlike organic pigments, which rely on carbon structures, inorganic pigments are derived from finely ground minerals, often containing metals or metallic salts. This composition makes them typically more opaque (better at hiding what's underneath) and less soluble (less likely to dissolve in liquids) compared to their organic counterparts.

## CHROME PIGMENTS

KCI supplies high-performance chrome pigments renowned for their color vibrancy, lightfastness, and heat stability. These pigments are formulated with encapsulated lead, encased in silica layers, to ensure environmental safety and minimize human exposure.

Product Name & CI Name	SHADE		Light Fastness		Heat Stability in °C for 20 min	Oil Absorption	Bleeding Resistance								Application
